

# NPC LOBBY 2/11/16

# NPC LOBBY

WEDNESDAY 2 NOVEMBER 2016

- **Assemble** 11.30am Old Palace Yard (opp House of Lords)  
Demo
- **Rally/Lobby** 1-3pm Committee Rm 14 (House of Commons)  
Speakers: Ian Blackford MP (SNP), Dot Gibson (NPC),  
Richard Harrington MP (Pensions' Minister invited),  
John McDonnell MP (Shadow Chancellor),  
Heather Wakefield (UNISON) and Dave Ward (CWU)

**W**ith a new government and an unprecedented amount of political uncertainty, millions of older people are concerned about the future - not only for themselves, but for their children and grandchildren too. This NPC Lobby gives campaigners the opportunity to raise these concerns with their MPs:

- The old state pension is completely inadequate, the new state pension is unfair, occupational pensions are under attack, the triple-lock is threatened and the state pension age is rising
- Social care services have collapsed, with £5bn cut from budgets, 1.8m people denied care, poor standards, underpaid and overworked staff, flying 15 minute visits and no dignity for anyone in the system
- Attendance Allowance, the winter fuel allowance, the free TV licence for the over 75s and the concessionary bus pass are all under pressure from those who want to means-test such benefits
- UK housing stock is poor, tens of thousands die every year from the cold and fuel bills keep rising
- Some politicians, organisations and people in the media are trying to divide the generations as a way attacking our welfare state and public services. We must not let them succeed.
